

HOW TO PLAY CASUAL BRIDGE ON BBO

Many of our players are using BBO to play casual bridge with friends. This is a free service from BBO:

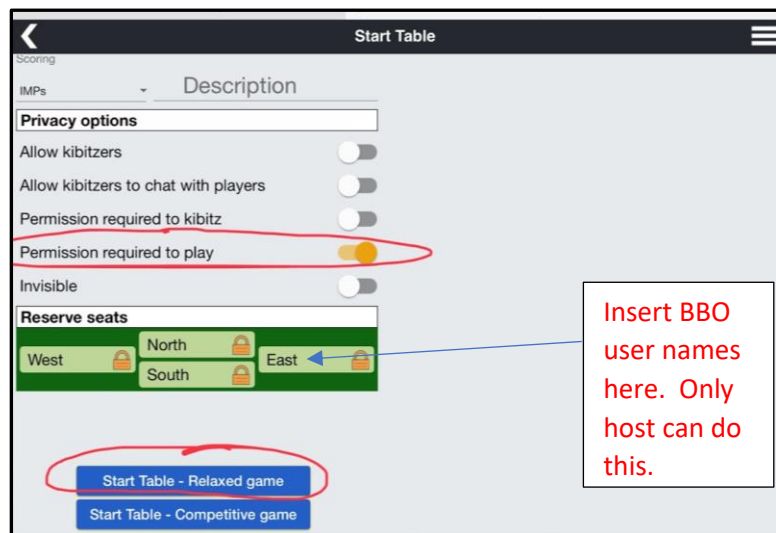

1. All 4 players must have registered with BBO and obtained user names.
2. Arrange when you are going to meet for bridge, exchange user names, and decide which of you will host the table.
3. Everyone log on at the agreed time.
4. Table host needs to set up the table:
 - a. On the home screen, under Play or Watch Bridge, click on Casual.

- b. On the Casual screen, in the Find Your Own Game section, click on “Start a Table.”

- c. First set the permissions; move the slider to turn on “permission required to play”.

- d. Then reserve the seats by typing in the user names in the four seats
e. Then click – Start Table – Relaxed Game

That should then send invitations to play to the other 3 players; once they accept, you'll be ready to go!

This tutorial covers the basics:
