

Pianola Preferences Set-up

1. After setting up your user name and password, when you log into Pianola you will see your name in the upper right hand corner. Click on the arrow beside your name and a menu will appear.

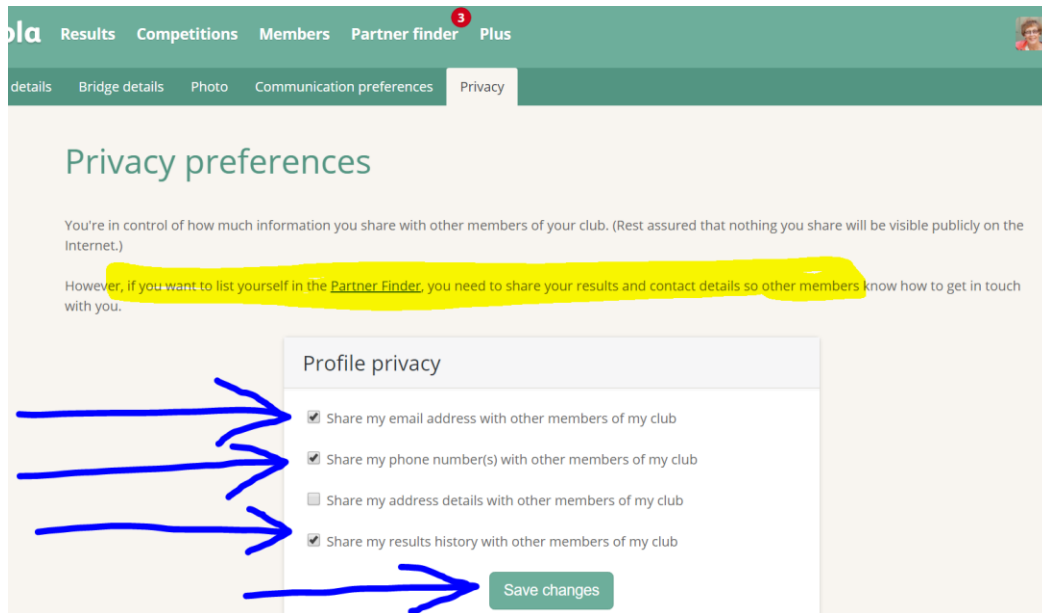

2. Choose "My Account".

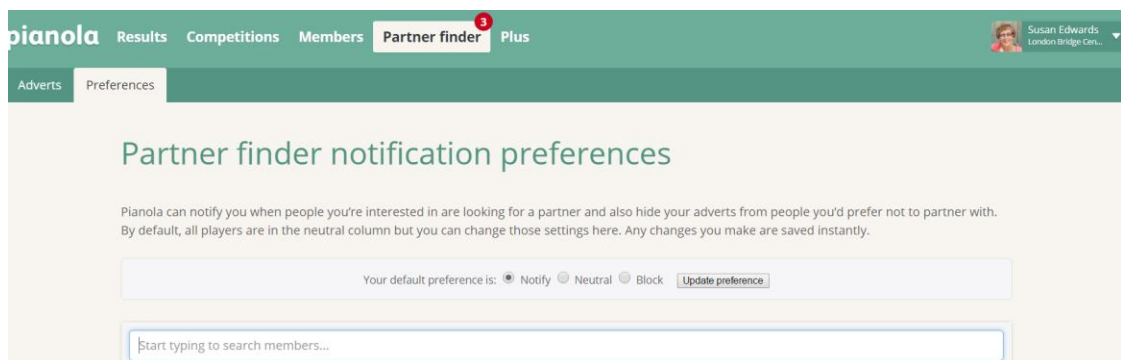

3. You will see your profile page with the following headings: Personal details, Bridge Details (systems that you like to play), Photo (you can upload a picture of yourself that will appear in Pianola), Communication Preferences (make sure to check both boxes), and Privacy.

4. Click on the Privacy tab. Ensure that you have checked "share my email" and/or "share my phone number". This way other members can contact you when looking for a game! Save your changes. See below.

5. If you would like to be notified when someone is looking for a game, you need to set that preference. Click on “Partner Finder” at the top of the page, and then click “Notification Preferences”. Check the box that says “Notify” and update your preferences.

6. If you wish to further customize your Partner Finder preferences, click on Partner Finder and then on Preferences. You may click on the appropriate dot

beside their name, as I have done with AI's below. (Sorry AI, this is just a demonstration!) Then click update preferences.

Preferences

Partner finder notification preferences

Planola can notify you when people you're interested in are looking for a partner and also hide your adverts from people you'd prefer not to partner with. By default, all players are in the neutral column but you can change those settings here. Any changes you make are saved instantly.

Your default preference is: Notify Neutral Block [Update preference](#)

edwards

	First name	Last name	Masterpo...	Rank	System	Notify	Neut...	Block
	Susan	Edwards	1243.70	Silver Life Master	SAYC	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
	AI	Edwards	1001.87	Silver Life Master	SAYC	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
	Ruth	Edwards	612.02	Bronze Life Master	SAYC	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Now you are done!
