

TEAM GAME HAND RECORDS ON BBO

For our IMP League games, go in to the history tab on BBO and find the event in the usual way. When you call up a board, click on the small "other table" button in the bottom of the hand diagram; that should bring up the bidding and play at your teammates table. Those records are loaded a few minutes after both tables have finished the event.

For the Swiss Teams event, like the March 7 and March 21 games, hand records are available the next day by accessing the BBO archive file. (In the instructions below, some may not be needed for some of you; seems to depend on how your system is set up.)

To do that - go to bridgebase.com <https://www.bridgebase.com>. This is the landing page BEFORE you log in to play. (Depending on how you have your bookmarks set up, you may just bypass this page entirely when you log in to play.)

Click on "Hand Records" at the top centre of the page.

Another log-in box will pop up, allowing you to go to the BBO archive to see hand records. Depending on your setup, you may or may not need to log in here; if you do, use your usual BBO username and password to log in. Then fill in the date you are interested in (March 7 or March 21) and click on "get hands".

A list of the boards should pop up. For each board, you can click on "movie" to see the play at your table; or on "traveller" to see the scores at other tables. On the traveller, clicking on "movie" for any one of the tables will show you the bidding and play. In these Swiss Team events, all tables play the same boards at the same time, so there will be a variety of results.
